

2020 RAPID RENEW

Due to the challenges facing members as a result of the Coronavirus, CIS is offering 2020 Rapid Renew, a streamlined renewal process.

Automatically renew all current coverages the member has with CIS.

Liability: Personnel services and materials and services budget figures increased by 3%

Workers' Comp: Each class code payroll figure increased by 3%

Property: Buildings, contents, and property in the open values trended by 3%

HOW IT WORKS

For those who select Rapid Renew, CIS will:

- Issue renewals May 15, 2020
- Skip proposals
- Only renew current coverages; new coverage will require the appropriate application
- Continue to ask for a payroll audit for workers' comp. to reconcile contribution
- Require agents and members to continually maintain accurate schedules of property, autos, and mobile equipment through the Interim Changes section of the website

Liability rating factors will not be audited.

To participate, simply click the Rapid Renew on our Online Renewal page on or after April 15. This program is only offered for the 2020 renewal.
